STATEMENT OF FACTS

This is a statement of facts on [REDACTED]s, taken at the courthouse, City of Gainesville, December 6, 1958, at approximately 10:30 A. M.

[REDACTED]s entered the courthouse bathroom and sat upon one of the johns downstairs in the men's restroom for approximately one hour. After observing this man sit there it was my opinion that he was of a homosexual nature. When [REDACTED] left the men's rest room and came out onto the street I stopped him and identified myself and asked the subject if he would come to my car and talk to me. He admitted he was a homosexual and had been a homosexual for the past 4½ years. Mr. [REDACTED] is employed at Cooks Shoe Store in the City of Gainesville. He is 27 years old and has been in the Air Force eight years previous to coming to Gainesville. This subject now lives at 306 N.E. 6th Street, Apartment 12, and is living by himself. This subject says he recognizes many people who go into the rest room for homosexual activity, a great number of them being professors and students at the University of Florida, but does not know their names--only when he sees them by sight. He says he will help us in any way he can by identifying professors and students that use the courthouse restroom in the City of Gainesville for homosexual activity..
